

# Specialty Doctor - Pediatrics

Fixed Term ( Full Time ) / Essex - United Kingdom / £40,037 - £74,661 / Vig - 005

---

## Summary

The paediatric department provides a comprehensive range of paediatric and neonatal services for the district. The maternity unit, general paediatric wards and neonatal intensive care unit are all based at the Basildon Hospital site. Outpatient clinics are also done at Orsett Hospital. It's geographical position and the strength and commitment of its consultant establishment gives it excellent prospects for further expansion in the region. There will then be a regular annual assessment through the revalidation and appraisal process to review how your training is progressing.
